

A multidisciplinary architect and designer passionate about art, design, and technology. Focused on architectural design, digital art, and strategic development, simplifying spaces into optimal experiences while maintaining their identity and soul. Expertise spans high-end architecture, interior design, and business development, integrating cutting-edge technology and streamlined workflows to enhance efficiency and innovation. Bridging design excellence with strategic growth, delivering impactful solutions across various scales and sectors.

EXPERIENCE

SEP, 24 – PRESENT

Consultant Architect

Medgulf , SA

Leading the renovation of Medgulf's headquarters and developing a design guideline for future expansions. Contributed to the concept design of a new iconic headquarters tower, aligning it with the company's strategic goals. Worked closely with chief officers on relocation planning and long-term development, ensuring seamless coordination with stakeholders and consultants.

AUG, 22 – SEP, 24

CTO, COO, Lead Architect

Majd Alaamal, SA [AlHokair Group]

Led the development of the Majdal Platform, overseeing product, business, and operations. Managed the design of eight upscale residential projects, delivering each within bi-monthly cycles using agile methodologies. Handled design and tendering for specialized projects, including a rehabilitation center, ensuring seamless execution from concept to completion.

JUN, 21' – APR, 22'

Design Architect

Badran Design Studio, JO

Collaborated closely with Prof. Rasem Badran and Eng. Jamal Badran on diverse projects across the MENA region, playing a key role in design development from initial sketches to final visualizations. Contributed to business workflows by streamlining sub-contracting mechanisms and coordinating with outsourced service providers. Additionally, built and maintained strong client and partner relationships, ensuring seamless project execution and delivery.

MAR, 20' – JUN 21'

Design Architect / Team Leader

Module Studio, SA

Joined as the sole architect and expanded the team to 12 architects, mentoring and refining production workflows. Managed prestigious residential projects from concept to construction, implemented BIM integration, and optimized MEP & structural coordination. Rapidly promoted to Team Leader, shaping studio growth and project execution.

AUG, 19' – FEB 20'

Design Architect/Site Engineer

PHOBIA ETR, JO

Worked with a team on a high-stakes design and build project for the PHOBIA haunted house, a top attraction in Amman. Oversaw the entire project, including planning and executing path design, scenery design, story writing, fabrication drawings, and construction supervision. Demonstrated a professional and detail-oriented approach, ensuring successful completion within strict timelines and exceptional quality standards.

AUG, 19' – NOV 19'

Architect/Trainee

BH Consultants, JO

Fulfilled curriculum field training with summer house design, leading to continued engagement with the firm on a prominent King Abdullah II Park competition design showreel animation project. Which spanned several months.
